

## 2022 - 3<sup>rd</sup> QUARTER

### NEWSLETTER!

- 📖 As the first Newsletter of the UIP, we wish to THANK everyone who is in support of the project and has continued the dream of Mrs. Cleland. The Board would also like to THANK all the individuals who provided support letters or made action with our local leaders, especially the ones behind the scenes who kept in contact with the UIP, as it began to evolve. Thank you!
- 📖 Moving forward, Newsletters will be provided on a quarterly basis and touch upon the positive actions the UIP has completed or undertaken within a one page description.
- 📖 The Board of Directors are please to announce the addition of Julie Glover as “Media and Events Officer” to the UIP. The Board welcomes her with her experience and organizational skills which involve public committee involvement, event organizer, and most of all an entrepreneur who opened a successful business in the insurance industry, in Downtown Gloversville.
- 📖 The UIP has submitted through the NYS Consolidated Funding Application (CFA) three grant request as the launch of the UIP continues and prepares for a productive 2023.
- 📖 The UIP has already been accepted under NYSERDA for Carbon Neutral Community Economic Development and will work closely on emission reeducation, once the planning and engineering is in full swing.
- 📖 UIP launched its first web design in August with American Marketing Company out of Malta, NY. The Board was very pleased with the creative detail, mission, and the history upon this build. The level of detail tells the story and supports the mission. Check out the webpages and become a proud supporter by making a donation using our new EFT system powered by iATS.
